

Work Breakdown Structure (WBS) for COMP1044 CRM System

Group Member	Responsibilities
Alei Halawa	- Designed ERD - Created database table structures - Finalized SQL scripts - Developed login/logout backend - CRUD operations for customers and leads - Form validation - Integrated secure database connections - Verified database consistency and corrected login issues
Belal Ibrahim	- Front-end layout (login page, dashboard, forms) - Responsive UI styling - Recorded demonstration video - Helped debug SQL - Supported database correction - Designed and implemented "Interactions" module
Zhang Jianing	- No contribution - Did not deliver assigned tasks or respond to follow-ups despite confirmation

Notes:

- Alei Halawa and Belal Ibrahim rebalanced responsibilities to cover Zhang Jianing's missing work.
- Project was successfully completed and submitted on time by the active members.
